# PREFACE.

---

Population United States census, 1910 .....	19,218
Population, 1914 .....	25,000
Population in a radius of 100 miles of Raleigh.....	1,791,908

RALEIGH, the capital of North Carolina, founded in 1792, was named for Sir Walter Raleigh, the famous knight and courier; who, during the reign of Queen Elizabeth, sent the first expedition into what is now the territory of the United States, this having made the first settlement on Roanoke Island, near the coast, eastward from Raleigh. The land on which Raleigh now stands was purchased by a commission, named by the legislature, from Joel Lane, and the streets were set apart and also five public squares, the commission having given names to all these. The State Capitol stands in Union Square; the Governor's Mansion in Burke Square; the State School for the White Blind in Caswell Square and the other two squares, Nash and Moore, are used as parks. The streets are at right angles and these and the squares are the property of the State and not of the city. The four principal streets, ninety-nine feet wide, are named after former capitals, New Bern, Halifax, Fayetteville and Hillsboro, and point in the direction of those places; the other streets being sixty-six feet wide. The State also owns the granite quarry from which the stone used in constructing the present capitol was taken, this building having been completed in 1840.

Raleigh is unique in that the site purchased by the State for the capital and its streets and parks within its boundary, are State and not city property. It is unique in another respect; it is the only city which, during the war between the States, was formally surrendered to the Federal authorities. This surrender having been made by commissioners who met General Sherman, commander of the United States forces, in April, 1865, a few miles south of the city.

The location of Raleigh is admirable, being on the first step of the plateau which marks the boundary between the coastal plain and the lower Piedmont region. On the eastward the pine forests extend to the sea, while westward there is rolling land, largely covered by hardwood timber. The country around Raleigh is particularly attractive and is well watered by streams and springs. The city's altitude above sea level is 363 feet, at the capitol building. The city gets its supply of water, which is healthful, from a stream, a mile from the boundary, storage basin 230,000,000 gallons; the watershed being carefully policed and under the jurisdiction of the city. The sewerage is carried into streams running north and south of the city, by natural fall.

Raleigh enjoys a year-around temperature of 60 degrees, average

## PREFACE—Continued.

---

annual sunshine 62 per cent; average annual snowfall 8.10 inches; average annual precipitation 49.9 inches. Raleigh was designated by the Board of Eminent Surgeons, appointed to select sites for hospitals during the Civil War, as one of the most suitable for that purpose, on account of its remarkably salubrious climate, pure water and splendid sanitation, combining as far as possible, an influence conducive to convalescence of invalids and health attendance.

The population of the city was 19,218, by the census of 1910; by census of 1914, 25,000; population now 30,000, 1918, there being four square miles within the corporate limits, which were extended in 1908. Of the population sixty per cent is white, and forty per cent colored. There are sixty-six miles of streets, of which twenty-four miles are paved; during 1914 there was \$220,000 worth of street paving done. 63.22 miles of water main, with 3,800 water-takers; 2,000 miles of telephone line, with 3,865 telephones installed; post-office receipts 1916. \$204,075.05; amount of bank deposits \$10,380,686.11; assessed value of property, \$13,708,000. Population within a hundred-mile radius of Raleigh, 1,791,908 people.

There are twenty-nine schools, of various classes, from a university to the grammar schools; of these fourteen being public schools with over 4,400 children in attendance; number of students in other institutions about 3,000, making a total of over 7,000 students in Raleigh. There are four schools for whites, a high school and six grammar schools; and for colored—four grammar schools, all of these public. Of colleges, there are for white, the N. C. State College of Agriculture and Engineering for men; St Mary's Peace and Meredith for young women; then two business colleges: King's Business College, and Page's School of Pharmacy; while for negroes there is Shaw University, the largest negro Baptist institution in the country; and St. Augustine has the same prominence among Episcopal colored institutions. The proportion of students in the schools of all classes is greater, as compared to the whole population, than any other city in the South.

From an industrial viewpoint Raleigh shows well, for during the past decade it increased its factory capital from \$728,000 to \$2,956,450, and the value of the products of factories from \$947,000 to \$5,644,150, so that it ranks fifth in the United States in the percentage of such increase in cities having under 25,000 inhabitants. The sixty-seven manufacturing plants turn out cotton goods, yarns, hosiery, underwear, boilers, structural iron work, agricultural implements, vehicles, cotton oil and fertilizers, phosphate fertilizers, house building material, furniture, school supplies, books and printing generally, building stones and monuments, street-paving material, washboards and other woodenware and candy. The increase in value of products during the ten years ending in 1910 was 119 per cent. There are seven banks and eight printing houses and fifty-two newspapers and periodicals are published here, the extent of the printing business exceeding that at any place of this size anywhere in the South.

There is one electric company, the Carolina Power and Light, with \$15,000,000 capital stock, operating the street railway and furnish-

ing light and power to all the manufacturing plants, including cloth, hosiery, underwear and yarn mills. This company obtains water-generated electric power from its plants at Milburnie on the Neuse river, six miles distant, and at Buckhorn Falls on the Cape Fear river, ninety-seven miles distant, and at Blewitt's Falls, ninety-seven miles distant on the Yadkin river, near Rockingham, for the transmission of power here over a line of 100 miles long. This company serves electricity to points between Raleigh and Roxboro to the northward, Goldsboro the eastward, Durham to the westward and Fayetteville on the southward. The company has taken over the gas plants at Raleigh, Durham and other points. It operates in Raleigh fourteen miles of street railway and thirty-six cars, and has installed here an auxiliary or reserve steam power plant, so that it has 60,000 H. P. for use.

There are two telephone companies and two telegraph companies; three public libraries, fifty-eight State buildings, including those at the Central Hospital for the white insane and epileptics, penitentiary, schools for the blind and deaf-mutes and the N. C. State College of Agriculture and Engineering; the total value of all these being \$3,900,000; this is not included in the tax valuation.

There are three railways: the Southern, Seaboard Air Line and Norfolk Southern. Raleigh is located midway between New York and Florida: is in close touch with all parts of the State, from the sea to the mountains; has sixty passenger trains daily. Lands have doubled and in many cases trebled in value during the past five years; the country in this vicinity produces a great variety of crops, including corn, cotton, small grain, tobacco, sorghum, peas and all sorts of truck, and in the county of Wake, of which Raleigh is the county seat, the corn-growing record of the United States has been broken by the production of 226 bushels on an acre, and the cotton-growing record by the production of 31½ bales to the acre.

The fire department is paid. The city has a remarkable record as to small loss by fire. The city ranks first-class as to insurance rates. It has a municipal building and an auditorium of stone and brick, at a cost of \$125,000, with a seating capacity of 5,000, this being one of the finest structures of its class in all the South. There are five hotels three practically new, and large additions to two of these have been constructed this year.

Raleigh is on the Capital Highway, the north and south line for automobile and other vehicles from Washington to Atlanta. It is midway between Boston and New Orleans, New York and Jacksonville, Fla., and on the great highway between Quebec, Canada, and Miami, in sub-tropical lower Florida, is equi-distant between the icebergs and the palms. Then, taking it east and west, it is on the Central Highway, from Beaufort to the Tennessee line, which is to be one of the links in the great Transcontinental Highway, which will unite North Carolina and California in its 3,000 miles of route.

Raleigh is a home of churches, for within her borders are large and influential churches. These are divided among the several denominations as follows: 17 Baptist, 2 Catholic, 4 Christian, 6 Episcopal, 8 Methodist, 2 Presbyterian, 1 Congregational, 1 Lutheran, 1

## PREFACE—Continued.

---

Non-Sectarian, 1 Undenominational, and its Y. M. C. A., costing \$85,000, equipped with spacious gymnasium, swimming pool, library, bowling alleys and many departments of interest to its members, is a possession of which Raleigh is justly proud. Six hundred and seventy-five young men belong to this association, which tends to the moral, social, and athletic development of the young people. There are three hospitals: Rex and Mary Elizabeth for white people, and St. Agnes for negroes.

The gas supply is 800,000 cubic feet daily; water supply, 5,500,000 gallons daily, with a consumption of 1,750,000 gallons daily; reservoir capacity, 2,000,000 gallons; filtering capacity, 3,500,000 gallons; impounding reservoir, 200,000,000 gallons; clear water reservoir, 2,000,000 gallons. The water plant is now owned by the city, and was recently improved at a cost of \$475,000.

At no capital in the country are there more buildings or institutions, etc., connected with the State government than in Raleigh.

These include the Capitol, Administration Building, Governor's Mansion, State Museum and Hall of History, Agricultural Department, State Library and Supreme Court Library, State Hospital for the Insane and Epileptics, State Prison, N. C. State College of Agriculture and Engineering; State Poultry Farm, Confederate Soldiers' Home, State School for the White Blind, State School for Negro Deaf-Mutes and Blind, State Fair Grounds, State Experiment Farm.

There are two theatres and four movies, two orphanages, forty-nine wholesale houses, dealing chiefly in groceries, drugs and chemicals, furniture, stoves and sheet-metal ware, farm implements, etc.

Any information regarding Raleigh can be promptly secured by writing the General Secretary of the Raleigh Chamber of Commerce.

## “Rubber, of Course”

Ask any electrical man to name the best all-around insulation. Ten to one he'll say *rubber*.

It is the right answer, too, particularly where storage batteries are concerned. That's one of the things that three years use of Willard Threaded Rubber Insulation has proved.

Come in. Let us tell you more about Threaded Rubber. Ask, while here, for a copy of the booklet, “The Wick of the Willard.”

## LULA B. WYNN HALL

*A Home School for Girls*

This is the Junior Department of Peace Institute. A school planned  
to give the right stimulus and necessary discipline to awaken a sense  
of responsibility. Work and play planned to meet the needs of the  
young girl.

MISS MARY OWEN GRAHAM, President  
Raleigh, North Carolina

# ST. MARY'S SCHOOL, Raleigh, N. C.

Founded in 1842 by Rev. Albert Smedes, D. D.

FOR GIRLS AND YOUNG WOMEN

THE LARGEST BOARDING SCHOOL FOR GIRLS OF THE EPISCOPAL CHURCH IN THE UNITED STATES

St. Mary's, incorporated in 1842, offers instruction in English, mathematics, Latin, French, and music, and is especially noted for its thorough preparation for the colleges of the United States and Europe.

The discipline is military but lenient, with household influences rather than college residential ones. The school is a boarding school, and the girls are prepared to enter any of the colleges of the United States and Europe.

St. Mary's aims to promote "sound physical development" to qualify a returned Christian young lady for the highest standard of scholarship. Attention to health is made a first imperative.

In addition to the College and Preparatory Courses, there are complete and up-to-date department courses in Music, Art, French, Business and Home Economics.

The boarding enrollment in 1909, the students of Music number 150; the total enrollment is 300.

The terms are moderate.

Full information may be had by addressing

ST. MARY'S SCHOOL, W. W. WAY, Director.

# No Education is Complete Without a Knowledge of Music

Is there a Piano in your home? If not—then your home is incomplete.

You intend to give your children a musical education; not for the purpose of making them great musicians, but to increase their liking for ART.

What influence in the home is more refining than that of music?

We cannot live up to our full measure without music. One who cannot appreciate good music and is not made better by it—cannot know true happiness or feel deep sorrow—A Shallow Soul.

We have been established thirty years.

We are known to be reliable. A Piano we cannot guarantee we will not sell. With us you are safe in any purchase.

Write us. We will gladly answer all inquiries.

## “Every bag of V-C Fertilizer made 100 pounds of pork!”

“YOU remember in the spring, Bill, I applied V-C Fertilizer to that corn land. You were a ‘Doubting Thomas.’ You didn’t think I’d would pay. Where no fertilizer was used, my yield was about the same as yours, but where the crop was fertilized, the yield per acre was 13 bushels more. It cost me about \$3 to get those extra 13 bushels.

“Now I’ve turned in my hogs. Those 13 bushels of corn will make more than 100 pounds of hog meat. It’s just plain business sense to convert \$3 worth of fertilizer into \$20 worth of pork. 50 acres of my corn land will make \$1,000 more profit on hogs than was possible without V-C.

There are lots of men like Bill whose farms are under-productive because they do not replace the plant foods each crop extracts.

Others like Mr. McIver Williamson of South Carolina, use from 1400 to 2000 pounds to the acre and yet only make more corn. You make it at a much lower cost per bushel—and enrich the land as

well. They convert chemicals into cash. V-C Fertilizers contain every element needed to make both stalk and grain.

### Important to Order Early.

Freight cars are scarce. Give the dealer your order so that he can have cars loaded to maximum capacity.

### Virginia-Carolina Chemical Co. (Incorporated)

C., Atlanta, Ga., Savannah, Ga., Columbus, Ga., Greenville, Fla., Jacksonville, Fla., Sanford, Fla., Montgomery, Ala., Birmingham, Ala., Mobile, Ala., Shreveport, La., Meridian, Tenn., Mt. Pleasant, Tenn., Baltimore, Md., Cincinnati, Ohio, Fort Wayne, Ind., New York City.

# V-C Fertilizers

## Fertilizers

### Feed the Fields that Feed the World!

THE world is asking for bread and meat. Bigger crops cannot be raised by increasing your acreage, the shortage of labor makes that impossible. To meet the demand for bread more grain must be raised on the acres you now cultivate. You must fertilize. You cannot ship away more fertility in the form of bigger crops unless you bring more fertility in.

To raise more livestock, we must have more feed. The only way to grow more feed, is to add to your soils supplies of plant food. Upon the use of fertilizers depends both bread and meat.

In the various portions of the earth, Nature provided food for the soil, Nitrates and Phosphates, just as she provided food for man and beast. The plant foods we gather from the four corners of the globe, and make into V-C Fertilizers, that are balanced crop rations—that benefit the crop immediately—nourish it from seed time until harvest. The crop is not overfed on one element and starved for the lack of another.

### Freight is Congested— Order Early!

We have more than 50 factories in the North, South, East and Middle West. We are able to get fertilizers to you with a minimum amount of hauling, but the car shortage is serious. Fertilizers should be ordered early, so that the dealer can assemble his orders and have every car loaded to maximum capacity. If you do not order **now** you may have to do without them!

When the fertilizers arrive, haul them home and store in your barn until you are ready to use them.

Write us for name of dealers near you who sell V-C Fertilizers.

## City Directory Don'ts

**DON'T** put your Directory in an out of the way place, but keep it in a place that your customers can see and use it without stopping some ONE to find it.

**DON'T** think that a Directory is paying for itself unless you use it more than an idle clerk can make you money.

**DON'T** look mad when a customer asks to look at your Directory.

**DON'T** look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow again and if all were borrowers, when would the next Directory be published?

**DON'T** forget that an **up-to-date** city must have a Directory and a merchant that has no **DIRECTORY** is what?

**DON'T** forget that a Directory borrower to-day will forget to return it to-morrow and you call him what?

**DON'T** forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for. What do you call him?

---

When a man advertises his business it is conclusive that he is not ashamed of it, especially if he does his advertising in the Roanoke City Directory.

**MORE GOODS  
ARE BOUGHT AND SOLD  
THROUGH THE  
CLASSIFIED BUSINESS LISTS  
OF THE  
DIRECTORY,  
THAN  
ANY OTHER MEDIUM  
ON EARTH**

---

---

A Few Things You Can Find in the

# City Directory

CLASSIFIED ADVERTISING DEPARTMENT with the advertisements of progressive firms doing a leading business.

NAMES OF MALE RESIDENTS of the city over 17 years of age with their occupation.

WOMEN carrying on business.

CLASSIFIED BUSINESS DIRECTORY of all persons or firms doing business under their proper headings.

LIST OF CITY OFFICERS.

Churches

Clubs

County Officers

Fire Department

Fraternal Organizations

Hospitals

Householders' Directory

Libraries

Notaries Public

Physicians

Police Department

Post Office Department

Public Buildings, Halls, etc.

Schools

State Government

Street Directory

United States Government

There is little that is confined within the limits of your city, that has a name and location, that cannot be found in your directory.

It is the contents of your city between the covers of a book.

Can you intelligently be without it?

Consult the contents page—It's a revelation.
